Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Tuesday 12 Oct 2021

++ Valid for broadcast between 0600 and 1800

Headline:
A largely cloudy day with outbreaks of rain.

Today:
A rather cloudy day with patchy outbreaks of mostly light rain throughout. Some brighter spells possible in the far east later in the day, though remaining drab elsewhere. Rather cool. Maximum temperature 12 deg C (54 deg F).

Tonight:
Rain and cloud will linger through the early part of the evening, but rain should ease toward midnight as cloud breaks in the east during the early hours. Minimum temperature 6 deg C (43 deg F).

Wednesday:
A mixture of dry and bright spells with sunny intervals in the east and cloudier conditions toward higher ground in the west, with showery outbreaks of rain possible. Maximum temperature 15 deg C (59 deg F).

Outlook for Thursday to Saturday:
Mainly dry but rather windy Thursday with some brightness away from high ground where cloud and drizzle lingers. Rain overnight. Friday and Saturday brighter but colder with light winds.
